E: Endangered Species Protection

1. Using the instructions in Appendix E of the MSGP, under which endangered species criterion listed in Part 1.1.4.5 are you eligible for coverage under this permit? *

Criterion C – Discharges and discharge-related activities are not likely to adversely affect listed species and critical habitat

2. Provide a brief summary of the basis for the criterion selected in Appendix E (e.g., communication with U.S. Fish and Wildlife Service or National Marine Fisheries Service to determine no species in action area; implementation of controls approved by EPA and the Services). *

Used USFWS' on-line mapping tool IPaC to generate a map showing the potential action area for the Facility's possible (but not expected) stormwater discharge location. A list of potential endangered or threatened species and critical habitat was generated from the IPaC on-line tool. These showed that there are no critical habitats identified within the action area, but there are four endangered and one threatened species that may occur within the action area. There are both terrestrial and aquatic-dependent species on the list. The Criterion C Eligibility Form was submitted to EPA 30 days prior to submittal of this NOI. As shown on that, there are no discharge-related activities at the Facility that cause, contribute to or result in stormwater and allowable non-stormwater point source discharges (this NOI is for an unanticipated discharge only), or no measures such as siting, construction and operation of stormwater controls to control, reduce or prevent pollution in a discharge.

a. What federally-listed species or federally-designated critical habitat are located in your "action area." *

Endangered: California Least tern; Southwestern Willow flycatcher; Yuma Clapper rail; Lesser Long-Nosed bat

Threatened: Yellow-billed Cuckoo
Critical Habitat: None

b. Using the Criterion C Eligibility Form, check which of the following is applicable to your facility and answer any corresponding questions. *

- I submitted my completed Criterion C Eligibility Form to EPA at least 30 days prior to submitting this NOI and agree to implement any controls that were determined by EPA to be necessary to ensure that my discharges and/or discharge-related activities will have no likely adverse effects on listed species and critical habitat.
- I submitted my completed Criterion C Eligibility Form to EPA at least 30 days prior to submitting this NOI and have not been notified of any additional controls necessary to ensure no likely adverse effects on listed species and critical habitat.

Date your Criterion C Eligibility Form was sent to EPA (in DD/MM/YYYY format) *

02 Sep 2015

* Note: After you submit your NOI and before your NOI is authorized, EPA may notify you if any additional controls are necessary to ensure your discharges have no likely adverse effects on listed species and critical habitat.

F: Historic Preservation

2. Using the instructions in Appendix F of the MSGP, under which historic properties preservation criterion listed in Part 1.1.4.7 are you eligible for coverage under this permit *

Criterion A - No subsurface stormwater controls
